# NPH Bible Study Kits

## Adapt a study and make it your own

Designed with flexibility in mind, adult Bible study kits from Northwestern Publishing House (NPH) contain a CD-ROM with student lessons in PDF and RTF, allowing for easy adaptation and duplication, and leader's guides in PDF, which include the student lessons with answers included.

**The Resource Section** on a number of the CDs contains articles and references to give the leader a running start on preparing for the course. Resources are also available two other ways.

## Lay Member Teaching Index

When choosing NPH Bible Study Kits this Teaching Index is provided to assist pastors in determining the appropriate match of a lay member's teaching skills to a Bible study's level of difficulty. This is meant as a basic guide ranging from 1, the easiest, to 10, the most difficult. Pastors should review the material and make their own assessment of course and teacher suitability.

### Levels 1-2

For the first-time teacher, or a trial course for someone who would like to become a regular instructor. Content is basic. The leader's guide provides enough information and teaching suggestions that the leader will not run out of material. Leader should have a good background in the Christian faith but may be new to the congregation.

### Levels 3-4

Content is basic. Some sections may offer challenges for understanding and teaching. Leader may have some experience in teaching an adult class but prefers teaching a relatively easy course, is an established member, and is familiar with those who will be in the class.

### Levels 5-6

Content is not difficult but contains some core doctrines of our faith. Some teaching experience may be helpful. Leader should have an above-average background in Christianity.

### Levels 7-8

Some content is difficult. Leader should have teaching experience. A lay teacher should do additional background study apart from the leader's guide.

### Levels 9-10

Contains relatively difficult concepts. Leader should be an experienced teacher with a firm grasp of Scripture enough to use the Bible's simpler sections to help the class understand the subject. A lay teacher should do additional background study and review each lesson with the pastor before it is taught.

## HIS WORD—MY LIFE SERIES

This series of Bible studies is a series a congregation can repeat—new members can join a basic and ongoing series of courses and established members can study the familiar Word of God, which always enlightens.

His Word—My Life addresses the core elements of our faith and contains a built-in plan of study—a curriculum, if you will. The 16 courses of His Word—My Life are divided into four areas, covering Bible books, Bible people, doctrines, and Christian living. The biblical truths in each lesson conclude with options for students to apply “his Word” to “my life”.
